Perhaps it's the luster of the footlights, or the lines which another man's brain puts in their mouths, or the romance, the color, light, the poses, the fictitious, attractive environment. It may be any one of these or all together, It is always the actor, however, who makes the impression, and never the man-the be powdered, bewigged gallant or the brigand in a dare devil slouch bat, and not the innguid modern "dude" who lolls against the Moorish portico of the Hoffman bouse cafe.
